Technical Data Sheet- Leather Finishing Products

Product Code: AM-1091

DESCRIPTION

AM-1091 is a 100% solids aliphatic isocyanate crosslinker that is dispersible in water.

APPLICATIONS

Used in leather base coat or topcoat application to improve physical properties and long term durability of the coating.

FEATURES

- Excellent compatibility and stability in most water base finishing systems
- No VOC
- High NCO values

PROPERTIES

Percent Solids, weight	100%
Specific Gravity, 25°C	1.14g/cm ³
Viscosity, cPs	3700

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of twelve months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
