Technical Data Sheet- Leather Finishing Products

Product Code: BS-088N

DESCRIPTION

BS-088N is a fluorosurfactant leveling and wetting aid for water base leather coatings

APPLICATIONS

Can be used in leather base or topcoat applications to reduce surface tension, promote flow, and eliminate surface defects like fish eyes or craters.

FEATURES

- Excellent compatibility with most water base coatings
- APEO Free
- Exceptionally low surface tension

PROPERTIES

Percent Solids, weight	5%
Specific Gravity, 25°C	0.98g/cm ³
pH, typical value	7.25
Viscosity, cPs	5

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
