Technical Data Sheet- Leather Finishing Products

Product Code: JK-702F

DESCRIPTION

JK-702F is a medium hard, NMP free, high performance aliphatic polyester polyurethane dispersion.

APPLICATIONS

- All-purpose polyurethane resin for leather applications where good flexibility, abrasion resistance and embossing properties are required.

FEATURES

- Good flexibility
- Good embossing properties
- Bright partner for topcoat applications

PROPERTIES

Percent Solids, weight	36
Specific Gravity, 25°C	1.04
pH, typical value	8.0
Viscosity, cPs	100

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
