## Technical Data Sheet- Leather Finishing Products

Product Code: AB-1020

### DESCRIPTION

AB-1020 is a compact embossable base coat for automotive leather.

### APPLICATIONS

Used in roll or spray applications to produce automotive leathers with exceptional coverage, softness, and aesthetic break properties.

### FEATURES

- Excellent high temperature no cut embossing with good grain retention
- Excellent bally flex and cold crack properties
- Excellent hydrolytic exposure flexibility resistance

### PROPERTIES

Percent Solids, weight	27
Specific Gravity, 25°C	1.04g/cm <sup>3</sup>
pH, typical value	8.58
Viscosity, cPs	75

### STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
