## Technical Data Sheet- Leather Finishing Products

Product Code: ML-4000R

### DESCRIPTION

ML-4000R is a high performance, compact pre-base up-grade system that can be used to repair and fill damaged leather grain surfaces.

### APPLICATIONS

Usually applied by SS roll base application or used as an additive to existing base coat formulas to further improve and enhance coverage and embossing print retention of leather.

### FEATURES

- Excellent adhesion and flex properties
- Minimal shrinkage after drying
- Superior foundation for subsequent finish coats
- Can be pigmented to complement color and coverage
- APEO / NMP/ Free

### PROPERTIES

Percent Solids, weight	25 %
Specific Gravity, 25°C	0.70 g/cm <sup>3</sup>
pH, typical value	9.5
Viscosity, cPs	15,000

### STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
