## Technical Data Sheet- Leather Finishing Products

Product Code: UM-1200

### DESCRIPTION

UM-1200 is a unique, solvent free, inherently dull polyurethane resin with exceptionally low gloss.

### APPLICATIONS

UM-1200 can be used as the main component in leather topcoat formulations to produce very low gloss systems with exceptional physical properties and soft touch hand feel.

### FEATURES

- Excellent clarity even at gloss levels < 1
- APEO and VOC Free
- Excellent physical properties
- Can be used as a dulling component for all types of systems
- Compatible with most polyurethane and acrylic resins

### PROPERTIES

Percent Solids, weight	25%
Specific Gravity, 25°C	1.02g/cm <sup>3</sup>
pH, typical value	9.1
Viscosity, cPs	550

### STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
