Technical Data Sheet

Product Code: AW-858

DESCRIPTION

AW-858 is a high molecular weight water-based silicon feel modifier.

APPLICATIONS

- Coatings with enhanced feel and improved abrasion resistance properties

FEATURES

- High solids
- Excellent permanency for automotive coatings
- Excellent high wear abrasion resistance properties

PROPERTIES

Percent Solids, weight	57-60
Specific Gravity, 25°C	1.04
Viscosity, cps	1000

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
