Technical Data Sheet- Leather Finishing Products

Product Code: AB-1081

DESCRIPTION

AB-1081 is a soft, tough acrylic resin with very low Tg, dry to the touch surface tack, and excellent flexibility.

APPLICATIONS

- Automotive leather base coat applications that require excellent adhesion, flexibility, and high temperature no-cut embossing properties**.**

FEATURES

- Excellent bally flex properties
- Excellent low temperature flex properties
- Excellent high temperature embossing properties
- Low surface tack

PROPERTIES

Percent Solids, weight	35
Specific Gravity, 25°C	1.03
pH, typical value	8.3
Viscosity, cPs	15

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
