Technical Data Sheet- Leather Finishing Products

Product Code: AB-1412

DESCRIPTION

AB-1412 is a soft, water based, leather flesh seal binder designed to be applied to the flesh side of leather.

APPLICATIONS

When properly applied by spray or roller coat, AB-1412 will prevent loose leather fiber transfer or fibers penetrating through perforation holes in cut leather parts.

FEATURES

- Excellent softness - does not stiffen the leather
- Highly effective in preventing loose fiber transfer
- Dilute with water for application

PROPERTIES

Percent Solids, weight	20%
Specific Gravity, 25°C	1.02g/cm3
pH, typical value	5.95
Viscosity, cPs	1300

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
