Technical Data Sheet- Leather Finishing Products

Product Code: AD-1179N

DESCRIPTION

AD-1179N is a silica based flatting agent suitable for use in water based topcoats for leather.

APPLICATIONS

Used in leather topcoat or base coat applications to reduce or adjust gloss levels of the coating system.

FEATURES

- Fine particle size Imparts smooth no-speck surface feel
- Maintains exceptional clarity even at high loading
- High efficiency for excellent gloss control

PROPERTIES

Percent Solids, weight	12
Specific Gravity, 25°C	1.02g/cm3
pH, typical value	8.5
Viscosity, cPs	900

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
