A Step Ahead…

Technical Data Sheet- Leather Finishing Products

Product Code: AD-595

DESCRIPTION

A resin free silica based duller for use in leather base coats to reduce gloss, increase coverage, and improve processing properties like embossing, milling , staking.

APPLICATIONS

Add from 5-18% in base coats only - not recommend for leather topcoat usage.

FEATURES

- High efficiency gloss reduction
- Reduce tack of soft base coat formulations
- Improve coverage of base coat formulations

PROPERTIES

Percent Solids, weight	22
Specific Gravity, 25°C	1.06
pH, typical value	8.5
Viscosity, cPs	500

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
