A Step Ahead…

Technical Data Sheet- Leather Finishing Products

Product Code: AM-1706 Crosslinker

DESCRIPTION

A multifunctional water based crosslinker used to enhance the physical properties of high-performance coatings.

APPLICATIONS

Can be used at levels from to 1-10% to enhance the physical properties of most coatings. The product will increase crosslink density for improved chemical resistance while maintaining flexibility and long-term durability.

FEATURES

- Improved Chemical Resistance
- Water based chemistry
- High functionality
- Biobased composition

PROPERTIES

Appearance	Clear
Percent Solids, weight	>90%
Specific Gravity, 25°C	1.04 g/cm3
Viscosity, cPs	3000-8000

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of twelve months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
