Technical Data Sheet- Leather Finishing Products

Product Code: AW-1481

DESCRIPTION

AW-1481 is a unique functional silicone additive used to enhance stain and soil resistance properties of water base topcoats.

APPLICATIONS

Can be used at levels from 5-10% in stain & soil resistant formulations to enhance properties.

FEATURES

- Good compatibility with most finishing systems
- Enhances stain & soil resistance properties in topcoats

PROPERTIES

Percent Solids, weight	40%
Specific Gravity, 25°C	1.01g/cm3
pH, typical value	7.0
Viscosity, cPs	20

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
