A Step Ahead…

Technical Data Sheet- Leather Finishing Products
Product Code: BT-1690

DESCRIPTION

BT-1690 is bright aqueous coating for flexible plastic substrates, natural leather and synthetic leather. BT-1690 is designed to be used in combination with a formulated dull compact to adjust the required gloss level. To increase the physical properties of BT-1690 a crosslinker can be used.

APPLICATIONS

- Automotive Interior

FEATURES

- High gloss
- Pleasant haptics
- Stain and Soiling Resistance
- Excellent Bally Flex
- Excellent abrasion
- NMP Free

TYPICAL PROPERTIES

NV%	28-32%
pH	7-10
Viscosity, cPs	100-800

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of 18 months. Protect from freezing. Mix before use.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
