A Step Ahead…

Technical Data Sheet- Leather Finishing Products

Product Code: DT-1308

DESCRIPTION

A high efficiency polyurethane duller suitable for use in water base automotive leather topcoat formulations to reduce gloss and enhance abrasion resistance.

APPLICATIONS

Used in automotive leather topcoats as the primary dulling component to reduce gloss levels to meet OEM specifications.

FEATURES

- Fine particle size Imparts smooth surface feel
- Maintains exceptional clarity even at high loading
- High efficiency for excellent gloss control
- Exceptional physical properties in terms of flex and abrasion resistance

PROPERTIES

Percent Solids, weight	24
Specific Gravity, 25°C	1.02g/cm3
pH, typical value	8.7
Viscosity, cPs	800

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
