Technical Data Sheet- Leather Finishing Products

Product Code: DT-1676

DESCRIPTION

DT-1676 is a dull aqueous coating for flexible plastic substrates, natural leather and synthetic leather. DT-1676 is designed to be used as a topcoat or in combination with a formulated bright compact to adjust the required gloss level. To increase the physical properties of DT-1676 a crosslinker should be used.

APPLICATIONS

- Automotive Interior

FEATURES

- Low gloss
- Pleasant haptics
- Excellent Bally Flex
- Excellent abrasion
- Good chemical resistance

TYPICAL PROPERTIES

NV%	28-32%
pH	7-10
Viscosity, cPs	100-350
Gloss	≤1.1

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of 18 months. Protect from freezing. Mix before use.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
