A Step Ahead…

Technical Data Sheet - Synthetic Finishing Products

Product Code: DT-1684

DESCRIPTION

DT-1684 is a dull aqueous coating for synthetic substrates. DT-1684 is designed to be used as a topcoat or in combination with a formulated bright compact to adjust the required gloss level. To increase the physical properties of DT-1684 a crosslinker should be used. Hand modifiers may be added to achieve specific haptic targets.

APPLICATIONS

- Automotive Interior

FEATURES

- Low gloss
- Pleasant haptics
- Excellent abrasion
- Good chemical resistance
- Good light fastness and heat resistance

TYPICAL PROPERTIES

Percent solids, weight	24-28%
Gloss	≤1.1
pH	7 - 10
Viscosity, cPs	200-600

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of 18 months. Protect from freezing. Mix before use.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy, and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
