Technical Data Sheet- Synthetic Finishing Products

Product Code: DT-1721

DESCRIPTION

DT-1721 is a low gloss aqueous coating for synthetic substrates. DT-1721 is designed to be used as a topcoat. It provides excellent wear and anti-soiling properties. When used in combination with a crosslinker, it can be cleaned and will resist permanent staining.

APPLICATIONS

- Automotive Interior

FEATURES

- Low gloss
- Excellent abrasion
- Good stain resistance
- Good light fastness and heat resistance
- Excellent cleanability

TYPICAL PROPERTIES

NV%	22-26%
Viscosity, cPs	200-600
Gloss	≤1.0

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of 18 months. Protect from freezing. Mix before use.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
