Technical Data Sheet- Leather Finishing Products

Product Code: OPTIMIZER LV

DESCRIPTION

Optimizer LV is a high performance, compact pre-base up-grade system that can be used to repair and fill damaged leather grain surfaces.

APPLICATIONS

Designed to be added as an additive to existing base coat formulas to further improve and enhance coverage and embossing print retention of leather. Typical addition amounts can be 10-50% depending on the substrate. Optimizer LV can also be applied by a Reverse roll-coater.

FEATURES

- Excellent adhesion and flex properties
- Minimal shrinkage after drying
- Superior foundation for subsequent finish coats
- Can be pigmented to complement color and coverage
- APEO / NMP/ Free

PROPERTIES

Percent Solids, weight	24 %
Specific Gravity, 25°C	0.82 g/cm3
pH, typical value	7-10
Viscosity, cPs	2000-3000

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
