Technical Data Sheet- Leather Finishing Products

Product Code: PC-1395

DESCRIPTION

PC-1395 is a high performance, low gloss, compact system used for automotive leather color coat applications.

APPLICATIONS

PC-1395 is used for intermediate color coat applications to level off and improve overall base coat appearance and also facilitate coverage and embossing print properties of leather.

FEATURES

- Excellent embossing print retention
- Exceptional physical test properties
- Low gloss
- APEO / NMP Free

PROPERTIES

Percent Solids, weight	22%
Specific Gravity, 25°C	1.01g/cm3
pH, typical value	7.9
Viscosity, cPs	650

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
