Technical Data Sheet- Leather Finishing Products

Product Code: PR-1614

DESCRIPTION

PR-1614 is an NMP free, high performance aliphatic polycarbonate polyurethane dispersion.

APPLICATIONS

- Polyurethane resin designed for leather applications where excellent flexibility, high-wear-abrasion resistance and embossing properties are required.

FEATURES

- Excellent flexibility
- High-wear properties
- Flex after fade properties

PROPERTIES

Percent Solids, weight	28-32
Specific Gravity, 25°C	1.04
pH, typical value	7-10
Viscosity, cPs	50-500

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
