Technical Data Sheet- Leather Finishing Products

Product Code: TK-1181

DESCRIPTION

TK-1181 is a soft, water based, aromatic polyurethane dispersion use to promote adhesion and penetration in all types of leather base coats.

APPLICATIONS

Used at levels between 5-20% in all types of leather base coats to promote adhesion and penetration.

FEATURES

- Very fine particle size
- Excellent adhesion promotion
- Compatible with most acrylic and polyurethane resins

PROPERTIES

Percent Solids, weight	19%
Specific Gravity, 25°C	1.03g/cm3
pH, typical value	7.76
Viscosity, cPs	22

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
