A Step Ahead…

Technical Data Sheet- Leather Finishing Products

Product Code: UM-1205 Matting Agent

DESCRIPTION

A high efficiency, water based dulling agent for leather coatings based on unique inherently dull polyurethane chemistry.

APPLICATIONS

UM-1205 is suitable as an additive to lower gloss levels in most water based topcoats for leather. Very low gloss levels can be maintained with enhanced clarity and soft touch surface feel.

FEATURES

- Exceptional gloss reduction
- Outstanding clarity
- Soft Touch surface feel

PROPERTIES

Percent Solids, weight	35%
Specific Gravity, 25°C	cm3
pH, typical value	7.3
Viscosity, cPs	300

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
