A Step Ahead…

Technical Data Sheet- Synthetic Finishing Products

Product Code: UM-1775 Matting Agent

DESCRIPTION

A high efficiency, water based dulling agent for synthetic coatings based on unique inherently dull polyurethane chemistry.

APPLICATIONS

UM-1775 is suitable for use in most water-based primers and topcoats as an additive to lower gloss levels. Soft touch properties and very low gloss levels can be maintained without the reduction of physical properties.

FEATURES

- Exceptional gloss reduction
- Good chemical resistance
- Soft Touch surface feel

PROPERTIES

Percent Solids, weight	29 - 31%
pH, typical value	7 - 10
Viscosity, cPs	10 - 500

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
