A Step Ahead…

Technical Data Sheet- Leather Finishing Products

Product Code: **XL-732N**

DESCRIPTION

XL-732N is a unique, multifunctional, polycarbodiimide, water based crosslinker used to enhance the physical properties of polyurethane and acrylic resins. Coatings with outstanding physical properties and performance can be achieved.

APPLICATIONS

XL-732N Crosslinker will improve the water, solvent, and chemical resistance. Provides long term durability of the coating.

FEATURES

- Solvent Free
- Low viscosity for ease of incorporation
- Low-Toxic
- Curable at room temperature
- Excellent crosslinking performance

PROPERTIES

Percent Solids, weight	40
pH, typical value	9-11
Viscosity, cP	<100

STORAGE

Store in a cool, dry place, preferably less than 80°F, to ensure a useful shelf life of twelve months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
